(Dalton High, Den Haag, Netherlands)**

## WORKSHOPS

Fun, interactive sessions that introduce, contextualise, and model spoken word poetry, and engage students with a number of writing and performing exercises that subtly engender confidence and bring English language skills to the fore.

An excellent way to engage even the most reticent or nervous student in speaking and listening to English and to create enthusiasm for linguistic creativity.

## EVENTS

The option of an event showcasing a diverse range of spoken word poetry professionals, which give workshop participants the opportunity to perform their newly created (or pre-existing) pieces in front of an audience of peers, poets, and teachers.

Established relationships with venues and performers in Oxford and London, as well as in Brighton, Cambridge, Bristol, Bath, and Southampton.

Performances, accommodation, meals, or tours can be organised as part of a package in any UK town or city upon request.
